A Message From President Dianne Trzebiatowski

From President Dianne Trzebiatowski

Where did the summer go? ... again! Unfortunately most of my summer was spent going to physical therapy and to various doctors, trying to alleviate and to find the source/reason for my chronic pain. :)

I hope your summer was more enjoyable than mine!

We had several HCE activities scheduled over the summer to work on various projects. Thanks to everyone who was able to make time to sew pillowcases (We finished 80 that day!), make tote bags, go on the tour to the Mead Wildlife Area, and help at our workday at the W/NP warehouse.

Our last two activities are the Executive Board Meeting (Aug. 24) and a "quilt let" sewing and assembling day on Aug. 31 at the Annex. Let's have a good turnout as we begin this new "Stitches of Love" project.

Copies of the finalized/updated Portage County HCE Bylaws and Standing Rules (available at the board meeting) have been distributed. If any changes or additions are needed, please let me know prior to Fall County Day.

Please remember to pay your HCE dues (for 2017) by the end of September.

The last Fall Central District Meeting will be held on October 25. The meeting is in Wild Rose, so we won't have far to go. Let's have a good turnout from Portage County! Going forward, there will be only one district meeting, in the spring of the year.

2016 HCE Summer Tour ~ Jean Schwirtz

Our HCE Summer Tour was held on Wednesday, August 3. We toured the George W Mead Wildlife Area in Miladore. At the center we watched a dvd about the history of the center. We then had a wagon ride through part of one of the trails. We enjoyed lunch right at the center, and then were able to walk through the flower gardens. It was a VERY hot day, so we didn't wander far. Our guide, Pamela Resech was very knowledgeable about all the plants and animals. *Members in picture: Jean Schwirtz, Pam Resech;*

The Impact of HCE ~ JoAnn Blonien, VP of WAHCE Family and Community Life

Dear Members,

For 2016 we would once again like you to keep track of your volunteer hours for activities directed by HCE. There are new forms for Member and County reports. Executive Board forms will remain the same. ALL the forms are on the WAHCE website www.wahceinc.org under Awards Forms & Info or from your local UW-Extension Office. Please give your completed forms to your County leadership for compilation. Counties will send full reports in to the State in early July.

"76 Trombones Leading HCE ~ Jean Schwirtz

"76 Trombones Leading HCE" is the theme for this year' WAHCE State Conference 2016. The conference will be held at the Plaza Hotel and Suites in Eau Claire September 12, 13. 14. This year's Educational Programs will include: Super Foods and a Healthy You and Keeping Your Brain fit as You Age. I will be attending these classes and will try and include them in next year's programing. If you have other program suggestions, please let me know. Portage County will

have three members honored for being Wisconsin BookwormTM readers. They are Esther Trzebiatowski and Jean Schwirtz for being readers for 10 years and Ramona Romundsen for being a reader for 15 years.

From the Desk of Sherry Daniels ~ Portage County FLE & HCE Advisor

Spring and summer went so fast (as always). I hope you were able to get out and enjoy all of the things you like to do during the warmer weather. Fall is a beautiful season in Wisconsin and I am looking forward to the colors.

Fall County Day is on October 5 and I will be sharing some information on "Building Money Wise Children". This includes grandchildren and great grandchildren and will include tips for ages two and up. I would like you to share a tip(s) on something you did to help increase knowledge of financial matters with your children so please be thinking about that. Looking forward to seeing you all on October 5.

MISCONSIA

- Allowances are a good way to teach children about managing money, making decisions, and using money.
- Provide learning experiences that fit the developmental age of the child.
- Give children a chance to make mistakes and experience the consequences when they are young.
- Guide and advise your children's money decisions rather than making the decisions for them.
- Money is not generally effective as a reward or punishment. It puts a dollar value on character.

Wisconsin Bookworms™ ~ Jean Schwirtz, Coordinator

Portage County will begin its 16th year as a part of the Wisconsin BookwormsTM program. This October we will begin reading at 5 different sites, reading to 260 students per month. Our readers are: Lynn Isherwood, Marge Thiele, Dianne Trzebiatowski, Donna Martens, Joyce Baird, Ramona Romundson, Esther Trzebiatowski, Sharon McNew, Rose Haarth and Jean Schwirtz.

Choosing Healthy Meals As You Get Older ~ National Institute on Aging

Making healthy food choices is a smart thing to do—no matter how old you are! Your body changes through your 60s, 70s, 80s, and beyond. Food provides nutrients you need as you age. Use these tips to choose foods for better health at each stage of life.

- **1. Drink plenty of liquids** ~ With age, you may lose some of your sense of thirst.
- **2.** Make eating a social event \sim Meals are more enjoyable when you eat with others.
- **3. Plan healthy meals** ~ Find trusted nutrition information and find sensible, flexible ways to choose and prepare tasty meals so you can eat foods you need.
- **4. Know how much to eat** ~ Learn to recognize how much to eat so you can control portion size.
- **5. Vary your vegetables** ~ Include a variety of different colored vegetables to brighten your plate.
- **6. Eat for your teeth and gums** ~ Many people find that their teeth and gums change as they age.
- **7. Use herbs and spices** ~ Foods may seem to lose their flavor as you age.

From the W/NP Office of Amy Wiza

Always a very special thank you to all the

HCE ladies who donate scissors, sewing machines, irons, fabric and baking supplies for the ladies in Nicaragua. This past week they had a bag making class that utilized many of the items you had sent

class. Butter cookies were done with different forms and decorated with royal Glass frosting. Two groups of children knead the dough for biscuits and then among all given forms to their cookie with the cutters sent from Wisconsin. We worked with the Sherin Bowen library children. They were very disciplined and paying attention to the class because this is essential for the development of the project. This class was coordinated by teacher Karla and attended by Jael.

Also, it was extra special for the children of the library to each be able to take home a cookie cutter after their baking class – yes, these cookie cutters were sent from Wisconsin. A heartfelt thanks to you all! - Wisconsin/Nicaragua Partners

Recognizing Depression in an Older Adult ~ Mastery of Aging Well Series, Extension.org

This information may help you recognize signs of depression in friends and family members. Depression is highly treatable. Early diagnosis means greater likelihood of good treatment outcome.

Did you know depression in an older adult does not always look the same as in a younger person?

In some older adults, depression may:

- be less about moodiness
- be more about a reduced interest in activities previously enjoyed
- involve complaints about memory difficulties
- include talk about physical problems, such as aches and pains for which no physical cause can be found
- include posture changes and a slowed gait
- involve irritability, especially in older men

Perhaps most importantly, an older adult does not as easily admit to the possibility of depression. If you ask them about "being depressed" it is likely to be denied.

The federal Agency for Healthcare Research and Quality (AHRQ) suggests one simple way to identify the possibility of depression in an older adult: Ask two questions, preferably without using the word "depressed."

- Question 1. "Over the last two weeks, have you felt let down or hopeless?"
- Question 2. "Over the past two weeks have you felt little interest or pleasure in doing things?"

"Yes" to both questions should lead you to seek a formal diagnosis from a well-informed health-care provider. Diagnosis by a knowledgeable clinician is an important step in the treatment process. Again, depression is highly treatable. Early diagnosis means greater likelihood of good treatment outcome.

Seek treatment — the earlier the better.

This is the first in a series of articles based on topics from the "Mastery of Aging Well Series" developed in partnership with the AARP, Oregon State University Extended Campus and OSU Extension. These topics can be presented more in depth as an educational opportunity. Independent self-study is also available on line. If you are interested in learning more please contact Sherry Daniels, Portage County UW-Extension, Family Living Educator at 715-346-1316.
