

# 2022-2023 Portage County 4-H Enrollment & Project Guide

## Welcome to Portage County 4-H!

### Explore 4-H...it's an adventure that will change your life!

4-H is a community of young people across America who are learning leadership, citizenship, and life skills. 4-H is about having fun, learning, exploring, and discovering. In 4-H, young people make new friends, develop new skills, become leaders, and help shape their communities. 4-H is open to all youth, no matter where they live. Anytime is the right time to join 4-H; but enrolling in the fall gives youth the best chance to fully benefit from 4-H activities over an entire project year.

# Wisconsin 4-H Project Guide (with Supplements)

**This is your guide....** A 4-H project is an area you want to learn more about during the year. There are projects on just about any topic you would like to study and explore, from art to woodworking, from computers to rabbits, from clothing to small engines.

So how do you know what projects are available to you? Your club organizational leader or enrollment coordinator can tell you what projects and resources are available. You can also contact your local Extension Office to see which projects are available in your county.

Do not forget to check out the project pages on the Wisconsin 4-H Web Site. On these pages, you will find descriptions for statewide projects, Internet resources and links of interest, county fair exhibit suggestions, state specialist contacts, and other suggested 4-H resources.

Remember, you will learn more than “subject matter” as you complete your projects. You will learn many “life” skills that you will use every day of your life, such as understanding yourself, communicating better, solving problems, making decisions, and working with others. Good luck in your project selections. Have a great 4-H year!

## How to Select 4-H Projects

**4-H members . . .** First, make a list of the things you like to do or want to learn more about. Talk over your list with your parents, leaders and friends. They may recognize some special things you are good at that you do not even realize you do well.

Then compare your list with the projects described in this guide and any other project list you may receive from your county. Ask yourself if you have the equipment, money and time to do the projects that sound interesting.

Many projects have more than one level. If you have had a lot of experience in an area, you may want to skip the first or beginning level of a project. Many projects also have grade recommendations. These are only recommendations.

If this is your first year in 4-H, concentrate on doing only two or three projects well. Usually you can spend more than one year in a project unit because there are enough ideas there to span two or three years.

**4-H leaders . . .** If there are several units within a project and you are a leader for only one, then choose that unit. For example, if you are a Shooting Sports leader for archery, choose Archery. You will need to make more than one entry if you are a leader for more than one project unit. For example, if you are a Shooting Sports leader for archery *and* air pistol, choose both.
